

CME 75

Track Mounted LAR

Remote control track drive allows this machine to climb hills, traverse mud, sand, rocks and snow all while the operator's feet are planted firmly on the ground. Independent track drive controls, engine speed and carrier front winch are all operated by remote control with emergency back-up manual controls provided.

Key Features

Powered by a Deutz 914, 173 HP tier 4 engine with a 13 inch Spicer clutch matched to a 4005 manual transmission. The power is transmitted through CME 85 gear works to the augers. The torque rating (as geared) is 14,000 to 16,000 lbs./ft. The pull back is rated at 50,000 lbs.

- Height when towered up: 12' 8"
- Height when towered down: 8' 3"
- Length: 14'
- Width: 6' 6"

Equipped with three winches:

- PULLMASTER H8 (8,500 lbs.)
- PL-3 (7,000 lbs.)
- LANDA free fall sampling winch

Also mounted is a 140 lb. auto hammer with anvil.

The rig is equipped with a MOYNO 3L6 pump, 90 gallon water tank and auger rack to facilitate work at those off-site hard to reach drill locations. It also has power in and out and side to side capabilities.
